

# EXPERT WITNESS DIRECTORY

# Meet Our **SUBJECT MATTER EXPERTS**

**AIMEE' KILLEEN**  
Water Quality

**PAUL CLIFTON, PWS**  
Natural Resources &  
Coastal

**GARY LEONARDS, PE**  
Engineering

**Aimee' Killeen**  
WATER QUALITY SUBJECT MATTER EXPERT

Aimee' Killeen has more than 25 years of experience in water resources regulation and policy with expertise in environmental permitting and regulatory compliance. Projects have included water quality modeling, water quality standards and assessment, regulatory oversight, grant applications, and regulation development. She has been involved in several project areas: environmental assessments; National Pollutant Discharge Elimination System (NPDES) and state water permitting, negotiations and compliance; storm water plan development, implementation, training, and inspections; §319 grant applications; municipal separate storm sewer system permitting and compliance; use attainability analysis development; concentrated animal feeding operations; sewage sludge and biosolids disposal and permitting; and water quality modeling and implementation.

**MINDI FAUBION, PE**  
Air Quality

**KEVIN CALHOUN, PE**  
Air Quality

**ROBYNN ANDRACSEK,  
PE, ENV-SP**  
Air Quality

**PROFESSIONAL WETLAND SCIENTIST**  
LICENSE NO. 3326

**Paul Clifton, PWS**  
NATURAL RESOURCE & COASTAL SUBJECT MATTER EXPERT

Paul Clifton has more than 30 years of multidisciplinary experience in project management and wetlands/ecological compliance services including wetland delineations, U.S. Army Corps of Engineers (USACE) Section 10/404 and Louisiana Department of Energy Natural Resources (LDENR) Coastal Use permitting, habitat value assessments, interpretation of state and federal wetland regulatory requirements, liaison assistance with state/federal resource and regulatory agencies, Section 7 Endangered Species Act consultations, and management of ecological studies/environmental investigations. He has also managed several complex projects specific to the energy sector for natural gas, crude, and product pipelines. Mr. Clifton has served as an expert witness for coastal, wetlands, and USACE permitting issues.

PROFESSIONAL CIVIL ENGINEER  
LA LICENSE NO. 30568

**Gary Leonards, PE**  
CIVIL ENGINEERING SUBJECT MATTER EXPERT

Gary Leonards, PE, has more than 25 years of experience in civil engineering, including work in the environmental, infrastructure, and coastal engineering arenas. His background includes design, studies, permitting, engineering oversight, field investigations, risk-based evaluations, and closure planning for waste disposal facilities. Infrastructure improvement project experience includes roadways, drainage systems, levees, water treatment facilities, sanitary sewer systems, pump stations, force mains, landfills, surface impoundments, oxidation ponds, solid and hazardous waste containment systems, municipal and commercial drainage studies, storm water runoff evaluations, storm water conveyance design, and design of erosion/runoff control measure design.

**Mindi Faubion, PE**  
AIR QUALITY SUBJECT MATTER EXPERT

Mindi Faubion, PE, has more than 15 years of experience in air quality work that includes permitting, Prevention of Significant Deterioration (PSD) and Nonattainment New Source Review (NNSR) permitting, AERMOD modeling for significance impact determinations and National Ambient Air Quality Standards (NAAQS) compliance analysis, compliance plan development, monitoring plan development, regulatory analysis and interpretation, emissions estimation, and Emission Reduction Credit (ERC) research and validation for NNSR applications and general air compliance support. Ms. Faubion has served in numerous industries including organic and inorganic chemicals manufacturing, oil/gas production, compression, transportation, wood products manufacturing, and electric power generating.

**Kevin Calhoun, PE**  
AIR QUALITY SUBJECT MATTER EXPERT

Kevin Calhoun, PE, has more than 30 years of multi-media environmental experience. He has led numerous environmental compliance and due diligence audits for both major and minor source facilities. Some due diligence audits conducted were associated with the purchase of existing facilities for oil and gas and petrochemical clients. Mr. Calhoun has represented clients in compliance inspections by both the Louisiana Department of Environmental Quality (LDEQ) and US Environmental Protection Agency (EPA). His experience includes an emphasis on air quality issues with extensive experience assisting clients in permitting and enforcement actions. Mr. Calhoun has also provided litigation support for numerous clients.

**Robynn Andracsek, PE, ENV-SP**  
AIR QUALITY SUBJECT MATTER EXPERT

Robynn Andracsek, PE, has more than 28 years of experience in air quality engineering and is a licensed engineer in 16 states. Her industry experience includes power generation (coal, natural gas, oil, biofuels, Reciprocating Internal Combustion Engines (RICE), turbines, boilers, combined heat and power (CHP), International Green Construction Code (IGCC), steel, rendering, grain processing, glass, plastics, chemical, painting, hospitals, and universities. Client locations include 30 states and Saudi Arabia. Ms. Andracsek has run air dispersion models for the entirety of her career and has testified as an expert on air dispersion modeling before the South Dakota Minerals and Environment Board. Her experience spans the entirety of air permitting, but her specialty is New Source Review (NSR), BACT, and complex Prevention of Significant Deterioration (PSD) netting. She is experienced in negotiations with state and federal agencies and compliance audits. Ms. Andracsek teaches Air Quality and Engineering Ethics at the University of Kansas and has been published over 200 times and is active with the NSPE, KSPE, and NCEES.
